

4 Channel Indoor Surveillance System

Add an affordable 4-channel video solution today to keep track of your company profits! How much money could you save each and every year if you could do the following?

- Verify your till and front counter match money to products sold
- View your delivery areas to watch for inventory being delivered and stocked
- Dumpsters, find who has been leaving you extra garbage on the weekends
- Monitor your gas pumps for gas sales or employee fueling
- Keep your employees and customers safe by tracking who enters and leaves your establishment.
- Discourage criminals who may have otherwise considered your establishment for theft or vandalism
- Document slip and fall accidents and employee actions to help curb lawsuits
- Monitor your employee activities throughout the day to help achieve better efficiencies
- Match your existing audit trail with video evidence

O&W Communications specializes in high quality surveillance solutions and has a dedicated no pressure sales staff to help you make the right decision for your surveillance needs. Call us for a free consultation and product demonstration today at **920-457-8640!**
